## Third Party Labs and Billing

- I \_\_\_\_\_ (your initials) understand that Dr. Goldenberg and The Goldenberg GI center are not affiliated with nor are involved with the billing process of any recommended labs or testing companies.
- I \_\_\_\_\_ (your initials) understand that there are out of pocket costs associated with performing testing (especially functional lab testing) and that the Goldenberg GI center does not handle any part of the billing process including submitting claims to insurance.
- I \_\_\_\_\_ (your initials) understand that I should call the billing department of the testing company recommended to me to discuss my options for paying for the test and my financials risks and benefits of choosing to bill insurance.
- I \_\_\_\_\_ (your initials) understand that while many companies offer cash pricing some companies in particular, Genova Diagnostics, may leave you with a higher cost than the cash payment should you choose to bill insurance.
