

I _____ understand that Dr. Goldenberg and The Goldenberg GI center are not affiliated with nor are involved with the billing process of any recommended labs or testing companies. I understand that there are out of pocket costs associated with performing testing and that the Goldenberg GI center does not handle any part of the billing process including submitting claims to insurance. Please call the billing department of the testing company recommended to you to discuss your options for paying for your test and your financials risks and benefits of choosing to bill insurance. While many companies offer cash pricing some companies in particular, Genova Diagnostics, may leave you with a higher cost than the cash payment should you choose to bill insurance.
